MISSION STATEMENT

Our goal is to become the agency of choice by providing consistent optimum levels of care that will safeguard human dignity and promote wellness, hope and self-reliance of our patients and their families through the collaborative effort of our home health team.

We serve with our hands, mind and heart.

Home care allows for continued medical treatment in a comfortable, familiar environment in your home. It keeps families together while helping them adjust to a new lifestyle and maintains a sense of dignity for the patient. Our home care representatives are dedicated to meeting your health care needs.

**PROFESSIONAL
HEALTH CARE**

*in the comfort
of your own home*

We Provide Rehabilitation Services for Cardiopulmonary Patients in the Comfort of Their Own Homes.

Now Specializing in Cardiopulmonary Disease Management.

Family Care Home Health Agency has enhanced our level of care by designing a superior cardiopulmonary disease management program.

We will provide pulmonary intervention techniques in a bedside manner, all in the comfort of your home.

CARDIOPULMONARY DISEASE MANAGEMENT PROGRAM

In addition to providing an optimum level of care with our multidisciplinary services, Family Care Home Health Agency has created an intervention for heart and lung disease patients, particularly for patients with chronic obstructive pulmonary disorder (COPD), pneumonia, acute myocardial infarction (AMI), and chronic heart failure (CHF).

TREATMENTS AND THERAPIES INCLUDE:

- Work with your doctors to discuss goals and imitations
- Medication intervention (MDI, aerosol)
- ADL Management
- Simple therapies at home to move to higher level of functionality
- Oxygen supplementation

BREATHING TECHNIQUES THAT CAN HELP ALLEVIATE SHORTNESS OF BREATH

- Pursed lip breathing
- Diaphragmatic breathing
- Energy conservation techniques
- Home breathing exercises
- Awareness and practice to overcome crisis breathing

■ **SKILLED NURSING- RN'S, LPN'S**

Professional registered nurses provide prescribed treatments, assess changes and supervise the care of the patient. An emphasis is placed on patient and family instruction to foster maximum selfcare.

■ **HOME HEALTH AIDES**

A Certified Nurse Assistant will assist with bathing, dressing, personal care and other nursing care as prescribed by and under the supervision of a registered nurse.

■ **PHYSICAL THERAPY**

Is used to help the patient regain strength and coordination. Services provided include heat, massage, ultrasound, safe gait, transfer training and special exercises as prescribed by the doctor.

■ **OCCUPATIONAL THERAPY**

Provides activities and exercises designed to help the patient resume self-care and normal daily life.

■ **SPEECH THERAPY**

Involves treatments that help the patient with speaking, hearing and language problems. Speech therapy, for example, may be necessary for a stroke victim who needs help in learning to speak clearly again.

■ **MEDICAL SOCIAL SERVICES**

Can assess and remedy social, environmental and emotional factors which relate to the patient's health problems and utilize all family and community resources for adjustments and rehabilitation.

■ **NUTRITIONAL COUNSELING**

A Dietitian offers education in nutritional facts, eating habits, nutrients, allergies, and weight loss.

■ **WHAT IS HOME CARE?**

Home Care provides a coordinated system of comprehensive, multidisciplinary health care services in the comfort and safety of the patient's place of residence. Our team of health professionals, under the request and ongoing direction of the patient's personal physician, is available to bring health care services to homebound patients.

■ **WHAT ARE THE BENEFITS OF HOME CARE?**

Home Care offers competent and comprehensive health care to yourself and other members of your family, thereby promoting continuity of care between the institution and your home. It also provides a source of skilled care to those who prefer to remain in their home and for whom such care is appropriate and adequate. Patients are happier and can improve more rapidly in the surroundings of their home and family.

■ **WHO MAY RECEIVE THESE SERVICES?**

Everyone from infant to senior is eligible for these services in their own home if they require intermittent medical care with one or more services.

■ **WHO MAY REQUEST HOME CARE?**

Anyone may request Home Care services: the physician, the patient, family and friends.

■ **WHO PAYS THESE SERVICES?**

Approved services are covered 100% by Medicare. We accept a variety of insurance and self pay.
